

# ***Honeywell TrueSTEAM Humidification System***

*hydrate your home*

*moisture when you need  
it most*

*reduce heating bills*

*eco-friendly*

*70% less water*

*minimal maintenance*

**Honeywells TrueSTEAM humidifier can help reduce your heating bill due to the air feeling warmer with higher humidity. The optimal range for indoor humidity is between 35 & 55%. When you keep humidity within this range, your more comfortable at lower heating setpoints. This allows you to save !**

**The TrueSTEAM humidifier requires less maintenance than the previous fan powered & bypass humidifiers. TrueSTEAM offers the most reliable, efficient levels of moisture because of its 1:1 humidification delivery rate, regardless of equipment operation. The TrueSTEAM is the most eco-friendly way to humidify your home, because it eses up to 70% less water while delivering more moisture than traditional whole-house humidifiers.**
